

Attention Twisp residents in the neighborhood near Ainsworth, Bugar, Hagerman, Days, Peters, or North SR20. Also, residents and business owners near Canyon, Webb, Alder and SR20.

You are encouraged to attend a **community meeting on March 4th at 6:00 pm at the Twisp Grange Hall** for an informational session regarding the following two construction projects in Twisp; **Twisp Northtown Improvement Project, AND SR20 / Canyon Street crossing & transit stop**. A question and answer time by the Town's engineering teams will follow the presentations. These are extensive projects that will affect many residents during the construction phase and benefit the entire community upon its completion. We are excited about the infrastructure improvements that are planned to begin this summer.
