Discussion/Action: Review Revisions to the Resource Lands and Critical areas and Shorelines of the Comprehensive Plan – Wetlands and Fish and Wildlife Habitat:

Planner Danison went through the Resource Lands, Critical Areas and Shorelines section of the Twisp Comprehensive Plan pages 1-13 and the Critical Areas Regulations pages 1-19. The green print represents information that was moved from another area of the document and the red print is added information.

Discussion: Letter to Mayor and Council: Commissioner Battle opened the discussion on the possibility of writing a letter to the Mayor and Council Members regarding the Planning Commission's recent recommendations to Council. One reason for writing a letter is that many people from the town assisted in the review of these revisions and we think they expect to see these revisions enacted. Kurt noted that another reason is that we are continuing our work on the required update of the Comprehensive Plan and zoning provisions pertaining to Resource Lands and Critical Areas and in the next one to two months we expect to present a draft of revisions for your review. Commissioner Battle feels that he would like the letter to be reviewed by all of Planning Commission prior to being sent to the Mayor and Council. It was discussed that the letter should remain positive and show the Commission's willingness to be of service. They would like to see forward movement on the revisions as they worked hard and spent a lot of time updating it.

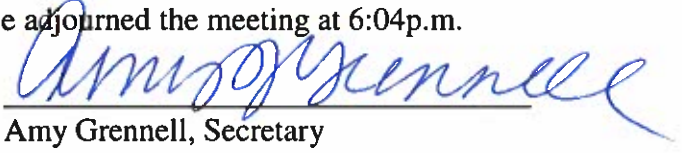

Next Steps:

Next meeting is planned for 5/8/19. The Commission will be moving on to cover the Geologically Hazardous areas and Shorelines of the Twisp Comprehensive Plan at the next meeting.

There being no further business Commissioner Battle adjourned the meeting at 6:04p.m.

John Battle, Chairman
