

# Town of Twisp

118 S. Glover Street • Box 278 • Twisp, WA 98856 • 509-997-4081 • 509-997-9204

## BUILDING PERMIT APPLICATION

Permit # \_\_\_\_\_

Issue Date \_\_\_\_\_

Expiration Date \_\_\_\_\_

Two site plans and two sets of building plans are required with this application. Be sure that you are informed on subdivision, zoning and all other land use regulations before applying for a building permit. No construction shall proceed before a permit is issued.

Building permits are valid for six (6) months from the date of issue. This applies to the attached clear and concise construction drawings and to the site plan of the stated project. The permit may be extended an additional six (6) months by submitting a request, in writing, to the Town of Twisp Building Department, providing that no changes are made to the project's construction drawings or site plan. Changes to the project's construction drawings and/or site plan may require a new permit and must be approved by the Town of Twisp.

Name of Trailer Court or Park \_\_\_\_\_

**Additional Permit Information:**

**The following are possible applications that might be needed before your building permit can be approved and issued.**

Does the project site have existing Town water hookup?  Yes  No  
Does the project site have existing Town sewer hookup?  Yes  No

**Yes** - Review of the building permit application will determine if there will be a higher water use which may require applying for more water/sewer ERU's (Equivalent Residential Unit).

**No** – Water and sewer service applications must be applied for. Building permits can be issued before approval of these applications, at the discretion of the utilities manager, with the understanding that it is not a guarantee of approval of water and sewer services. No certificate of occupancy can be issued until water and sewer services are applied for and installed. The review period for any water and sewer service application can take up to 14 days, provided a complete application is submitted.

In the floodplain  Yes  No

Within 200 feet of the shoreline  Yes  No

Within 100 feet of a known or suspected critical area  Yes  No

Requires more than 100 cubic yards of excavation or fill  Yes  No

**Yes** – If the project is in the floodplain and within 200 feet of the shoreline or requires more than 100 cubic yards of excavation or fill, it will require one or all of the following permits: Substantial development, conditional use or variance permit, critical areas project approval, land use permit and/or SEPA checklist. The review period for any of these permit applications can take up to 75 days. (Attached is a copy of the possible time frames it will take to review the above applications)

**No** – Landfill or excavation over 100 cubic yards, buildings over 4,000 square feet, and/or parking lots over 40 stalls may trigger any of the above mentioned permit applications.

**NOTE:** These are not the only situations that can trigger the above mentioned permit applications. This will be determined in the building permit review process by our Town Planner.

This facility is operated in accordance with the United States Department of Agriculture policy, which prohibits discrimination on the basis of race, color, sex, age, handicap, religion, or national origin. Any person who believes he or she has been discriminated against in any USDA-related activity should write to:

Under Secretary  
Rural Development  
Washington D.C. 20250

I hereby apply for a permit to do the work indicated above and acknowledge that I have read this application and hereby certify that the above information is correct and that I have accurately identified and depicted property lines and building locations. I have submitted two site plans and two sets of building plans along with this application.
